## SHERIDAN GOING ON TO MANILA SATURDAY

Well filled but not overcrowded the U. S. army transport Sheridan docked at 7:30 o'clock this morning at Pier 6, 24 hours late getting in, because of a dense fog in San Francisco bay, which Capt. J. J. Murphy, her commander, said made it necessary for the ship to anchor in the stream for 24 hours and made the Manchuria, the last Pacific Mail boat to leave here, 36 hours late arriving at San Francisco.

Several prominent persons arrived on the transport, which will not sail until 9 o'clock Saturday morning for Guam and Manila. Among these of note on board are 1st Lieut. W. V. Carter, son of Maj. Gen. W. H. Carter, commanding the Hawaiian Department. Lieut. Carter is first lieutenant of the 7th Cavalry, en route to the Philippines. He was met at the pier by his father and taken on an automobile ride.

George M. Hanson, American consul at Sandakan, Borneo, is another man of prominence on board. He is returning after a visit to the mainland, having been called to Washington on official business. He served as consul at Sandakan one year and is returning for a second year. Mr. Hanson's family will remain in the states, as he was unable to secure accommodations for them on the October transport.

Capt. Paul B. Malone, who conducted the college men's and businessmen's military training camps at the Presidio last summer, returned and is to report today to his old command, Company K, 2d Infantry. He has been away three months.

Other army men arriving for duty here included Capt. C. M. Valen, L. S. Eckels, and L. Mitchell, all medical officers, who are going to the department hospital here for duty.

Maj. H. D. Bloomberg, medical corps, arrived with his family and will be stationed at Schofield Barracks.

Musical in plenty was furnished on board the big vessel by the 15th Cavalry band. This regiment is going to the Philippines. According to Quartermaster Clerk E. Vernon Brown of the Sheridan, there are 1399 people on board, including the crew.

The transport's passenger list numbers 101 first class, 148 second, 997 troops, 129 crew, and one stowaway. T. F. Johnson, an American, 35 years old, who was put ashore here, after paying for his transportation by working every day.

Honolulu passengers included 36 first cabin, 32 second and 157 troops. Capt. Murphy reported that this is the first transport in many months which has not been overcrowded.

After taking on 700 tons of coal the Sheridan will sail at 9 o'clock Saturday morning, carrying 10 first cabin passengers from this port for Guam and Manila and several second cabin, also considerable freight and officers' household goods for the Philippines.

Capt. Murphy reported that the Sheridan passed the K submergibles day before yesterday, but did not come within 15 miles of the boats, so that only the lookouts and men on the high-top parts of the ship could make out the flotilla. He said he believed the undersea craft would reach here about 4 o'clock this afternoon, at the rate of progress it was then making. The commander reported the Maryland to have been towing one of the submergibles when the transport sighted her.

**NEW REGULATIONS FOR SHIPPERS MEAN MUCH NEW RED TAPE**

New shipping regulations which are declared to mean much more "red tape" for shippers in filling out export declarations, will become effective January 1 and will affect every shipment of freight to and from Hawaii. The regulations are known as treasury decision No. 35,708.

The regulations were prepared by customs experts in New York, in consultation with representatives of the department of commerce, and approval by the treasury department. The object is to obtain statistical information as to trade between this and foreign countries.

In brief, the new rules require shippers to make detailed export declarations, which must be sworn to before a notary. On goods shipped from Hawaii to the states, the shipper must prepare and deliver to the carrier an export declaration and attached extract in the prescribed form, to accompany the goods to the port of exportation.

Description of articles exported must be accurate and complete. General terms, such as dry goods, groceries, meats, machinery and the like will not be accepted. Export declaration blanks may be obtained from the collector of customs here at two for 1 cent, or \$5 a thousand.

## HARBOR NOTES

The Inter-island's chandlery quarters are being moved from the Waterhouse building on Queen street to the building recently purchased by the corporation, adjoining the property of Theo. H. Davies & Company.

For the purpose of taking the Chinese crews of the company's steamers back to China and returning to the states the office employees in the Orient, the Pacific Mail steamer Peru will sail from San Francisco probably October 26, for the Orient.

Although the Matson steamer Hiloian is due off port at 11 o'clock tonight she will not dock until 7:30 tomorrow morning at the railroad wharf. The boat is bringing 102 sacks of mail, of which only one contains letters. She has no passengers, but brings a heavy freight cargo.

The U. S. army transport Sheridan, which docked at 7:30 o'clock this morning at Pier 6, will not sail for Guam and Manila until 9 o'clock Saturday morning, owing to freight, cost and supplies requiring longer to load than was first estimated. She will carry mail for the Philippines and China points. Japan mail leaves October 29 on the Tenyo Maru.

Radio advice received this morning by the shipping department of Theo. H. Davies & Company, Canadian-Australian agents, stated that the Makura will arrive off port from Australia at 6 o'clock tomorrow morning and will dock about 8 o'clock at Pier 7. She will sail for Vancouver and Victoria at 1 o'clock tomorrow afternoon, taking a full despatch of mail for the states and Canada.

Attended by several hundred persons, the departure late yesterday from this port for Seattle of the Inter-island steamer Iwaland, was quite picturesque. The old vessel will be placed on sale when she arrives at the northern port. She has been a familiar sight here for more than 30 years. Capt. H. W. Lyon is in command. The Iwaland came here in 1883. When new she cost approximately \$30,000.

## ENGLAND NOW IN NEED OF MORE WOMEN DOCTORS

LONDON.—The demand for women doctors exceeds the supply, according to a statement by the London School of Medicine for Women. Even the posts of house physician and house surgeon in the hospitals, heretofore always held by men, are offered to women. This is particularly true of the provincial hospitals. Women are also taking the places of men who have gone to the front. Boards of Guardians are so hard up for doctors that, casting aside their inherited prejudices, they offer positions to women at increased salary.

Oscar Fowler, 16 years old, was drowned while swimming in the Hudson river, off 166th street, New York. Attorney-General Egbert E. Woodbury has withdrawn his \$50,000 libel suit against the New York Tribune. Mrs. Adelyn McDonnell of Chicago was clapped and checked by a performing ape in American theater, Chicago. Four men and one woman received prison sentence at New Orleans for violating the Harrison Anti-Narcotic law.

## DOCTORS HE SAYS HAVE NO LICENSE

On the grounds that Irving N. Bartholomew, proprietor of the Sanitarium treatment rooms in the grounds of the Royal Hawaiian hotel on Hotel street, and Wallace C. Weirick, chiropractic, at 424 South Beretania street, are carrying on the practice of medicine without licenses, complaint has been filed with Dr. J. S. B. Pratt, president of the territorial board of health.

Dr. Pratt has referred the complaint to Attorney-General Stainback, and the attorney-general, in turn, has referred it to City and County Attorney A. M. Brown, with the request to look into the matter to see if there is sufficient evidence against the two men to bring suit.

According to the territorial laws, "practice of medicine" is defined on rather broad terms. It is said to "include the use of drugs or medicines, water, electricity, hypnosis, or any means or method, or any agent, either tangible or intangible, for the treatment of disease in the human subject."

## AEROPLANE GUNS OFTEN TRAINED UPON HUGE STAR

(By Associated Press.)

PARIS, France.—Jupiter, looming up especially brilliant in the eastern sky not long after sunset nowadays, has been frequently mistaken for the searchlight of an aeroplane flying over Paris. Gunners at the front have made the same mistake and prepared to train their anti-aircraft weapons against it. The well-known astronomer, Abbe Moreux, says he has received a great many letters from them asking particulars about this great light in the east, brought to their notice for the first time by the war. Abbe Moreux infers from the mass of correspondence received that thousands of soldiers obliged to pass the night under the open sky, are acquiring an interest in the wonders and beauties of nature that otherwise they would have passed their lives without.

## FRANCE SENDING TO CHINA COAST TO GET ARSENAL LABORERS

PARIS.—In order to secure the maximum of production in its arsenals and to avoid as much as possible the necessity of calling on men of military age, the French government recently began the experiment of employing native laborers from Cochinchina, Annam and Tonkin. Fifty of them were sent to the aeronautics and munition shops at Tarbes, Castres and Toulouse. Results exceeded expectations and a second batch of 600 were sent to France. They will be followed by 4,000 others and soon the number of native workers will exceed 10,000.
